Fill in the Blanks
Follow the instructions to complete the activity.

1. Gardening can help people learn more about the world, especially the importance of having clean water and healthy soil.
2. Bees drink a sweet liquid called nectar from flowers. They turn the nectar into honey.
3. Flowers that grow from bulbs are often planted in the fall.
4. A watering can is used to deliver water to specific plants or to provide a spray of water over a small area.
5. Flowers need 17 different minerals to help them survive.
6. Spraying plant food on your flowers will help them grow.

Use the information found in Flowers to help you complete the following activity.

What Is a Flower?
Follow the instructions to complete the activity.

Using the space provided, label each part of the flower below. Then, write a short sentence or two describing each part. Check your answers on page 5 of the book.

 partes: 

True or False
Follow the instructions to complete the activity.

Using the information found in Flowers, verify whether the following statements are true or false. List the page number where you found the information beside your answer.
