# LIGHTBOX

Offered Exclusively by  **Follett**

# LIGHTBOX™

is learning in a whole new light

## What is it?

Lightbox™ is the amazing PreK-12 interactive eBook platform that brings learning to life. Easily fill curriculum gaps in language arts, history and science in this multimedia space. Use text, audio and video to explore content aligned with national and state standards. All English titles include one print book and one eBook.

## What makes it different?

Lightbox provides a unique, student-centered learning experience to improve comprehension, vocabulary and engagement – all within the same interface. You can use it on any device and reinforce material learned through slideshows, quizzes and key words. Plus, students and teachers love it!

Try the Lightbox demo at  
[school.follett.com/lightbox](https://school.follett.com/lightbox).

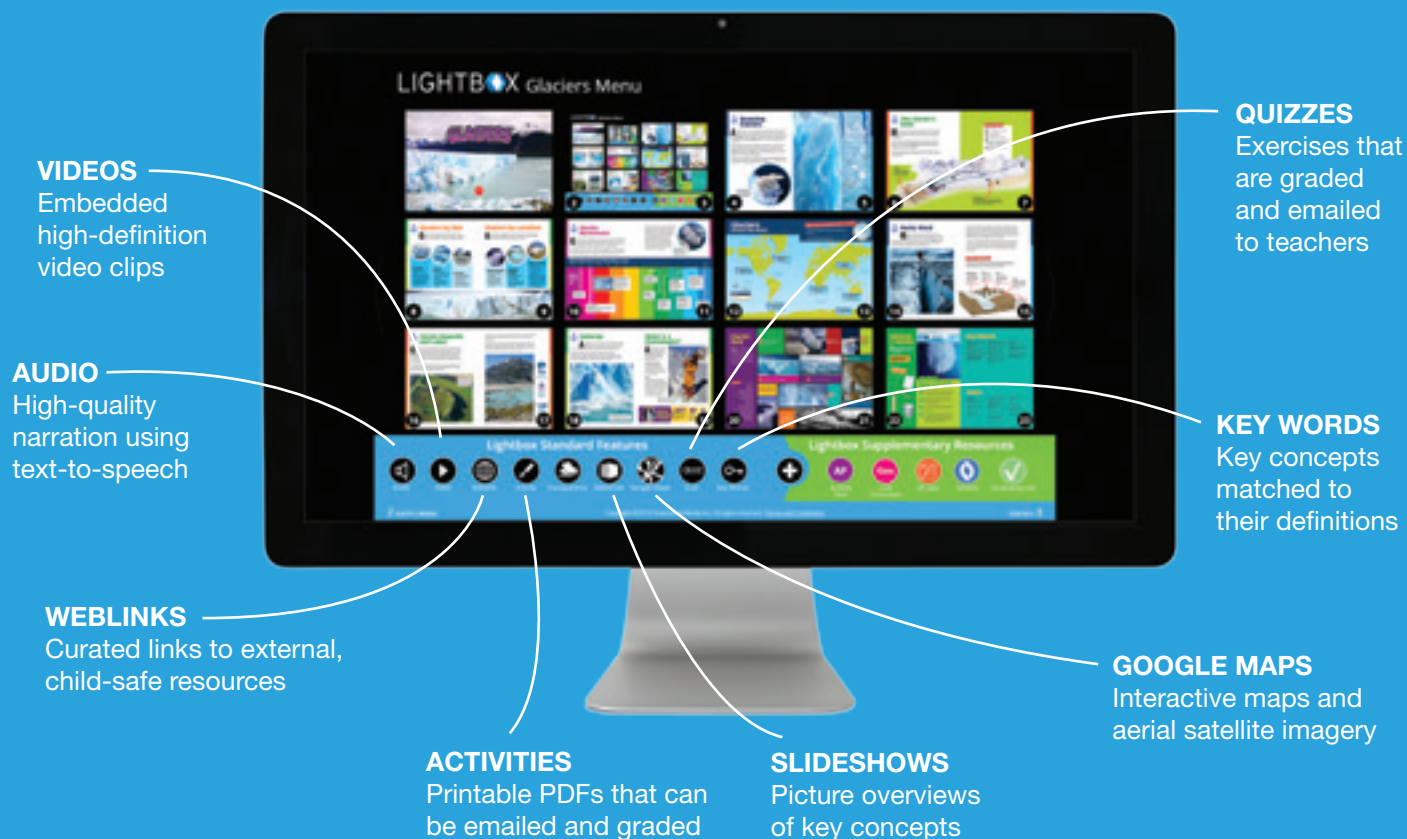

**NEW TITLES**  
for 2018  
in both **English**  
and **Spanish**.

Follett is proud to aid in the conservation of our natural resources by printing on recycled paper.

# The features in Lightbox provide a unique, engaging experience for students, including:

## What Lightbox users are saying...

"The transparency feature with the timelines is a feature I really like. I can review with my whole class, but I don't have to show them the whole thing at once. With 9 and 10-year-olds in 4th grade, it's overwhelming and they read stuff that you haven't gotten to yet. It's nice for me to limit what they're looking at during our discussion. And the kids are really gung-ho about Google Maps!"

"I'm excited to start integrating this into my classroom and kids are really liking it so far."

## Check out some of the benefits of Lightbox!

- Reading and learning in the student's native language can increase content knowledge retention and comprehension.
- Lightbox helps ELL students focus on core science and social studies concepts without the additional challenge of translation.
- Students have an excellent tool to help them work toward English proficiency when Spanish titles are paired with English titles.

## Lightbox users are saying...

"Lightbox books help with student engagement. The videos, activities and key-word games help my students connect with the material and learn more. For many of my students, reading is a struggle, so having interactive parts of a text can explain the information in a different, more accessible way."
